DSIT secure tech and cyber resilience conference

Location:

Crumlin Road Gaol

Date & Time:

1 July 2025

Background:

DSIT cyber security officials will present on various new cyber policy efforts, including the Cyber Governance Codes of Practice, the Enterprise Connected Device Security Call for Views and the AI cyber security global standard. There will be many opportunities for attendees to ask questions and share their reflections. The event will also involve an interactive session where attendees will be able to provide their insights into what additional government levers DSIT could be put in place to support future adoption of the codes and global standards.
