## CyberNI Week Overview

CyberNI Week 2026 will use the theme 'Collaborating to Strengthen Cyber Resilience' and brings together Public Sector, Industry, Academia, Charity & Voluntary and Citizens across Northern Ireland. Supporting the objectives of the National Cyber Strategy 2022, CyberNI Week aims to foster collaboration and share best practices to enhance cyber resilience across the sectors.

CyberNI Week will highlight the importance of unified efforts in addressing the ever evolving cyber threat landscape, ensure that the sectors in Northern Ireland have robust defence mechanisms in place to combat cyber threats, and help build a secure digital future.

## Key Objectives

1. **Promote Cross-Sector Collaboration:** Facilitate dialogue and partnerships across the different sectors within Northern Ireland, including Public Sector, Industry, Academia, Charity & Voluntary and Citizens, to create a unified approach to cyber security.
2. **Share Cyber Security Best Practices:** Provide a platform for sharing strategies, tools and techniques that enhance cyber resilience across different sectors.
3. **Enhance Awareness and Education:** Increase the understanding of current cyber threats, vulnerabilities and the importance of protective/preventive measures to mitigate cyber risks.
4. **Encourage Innovation:** Showcase new technologies and innovative solutions that can strengthen cyber defences.
5. **Community and Network building:** Build a community within Northern Ireland that are working towards improving cyber resilience and sharing cyber security best practices.
6. **Cyber Growth:** Increase in the number of people in Northern Ireland who have the skills they need to enter the cyber workforce.

## Audience

- Public Sector
- Industry
- Academia
- Charity & Voluntary
- Citizens

## Event Types

- **Webinars/In Person Events:** Insights from thought leaders and influential figures in the cyber security field on the importance of collaboration for cyber resilience.
- **Panel Discussions:** Interactive sessions with experts discussing real world challenges and collaborative solutions to enhance cyber security across different sectors.
- **Workshops and Training Sessions:** Hands-on sessions focused on practical skills, emerging threats and new technologies to improve cyber security skills.
- **Networking Sessions:** Provide attendees the opportunity to connect with different sectors in Northern Ireland, share ideas and form partnerships.
- **Case Study Presentations:** Provide real-life examples of successful collaborations and strategies that have improved cyber resilience and reduced risks from cyber threats.
- **Cyber Security Best Practice Events:** Sharing best practice across the various sectors within Northern Ireland.

## Theme Messaging

- **Defending against cyber threats:** Emphasis the critical need for collaboration and shared responsibility in defending against cyber threats.
- **Collaboration:** Highlight the advantages of collaborative efforts and resource sharing in achieving more robust cyber defences.
- **Resilient future:** Focus on building a resilient digital ecosystem through collective action and sharing innovative solutions to cyber resilience.

## Marketing and Promotion

### NICSC will:

- Promote all approved events on NICSC website and social media channels
- Promote CyberNI Week via Press Release
- Include event host logos on CyberNI Week promotional material

### Event Host should:

- Submit event for approval to the NICSC before 19 December 2025
- Promote their event across networks
- Utilise CyberNI Week branding
- Provide NICSC with feedback from event (attendees, numbers, etc)

The CyberNI Week Branding Pack will be provided to all hosts for use in promoting approved events.

## Success Metrics

- **Number of events:** Track the number of events and attendees
- **Feedback Surveys:** Feedback on the event to gauge satisfaction or areas for improvement.

## Register your event
